

CENTURION BOATS
2026 Ri SERIES

2026 Ri Series

Fifty Years of Boatbuilding. Perfected. The Ri Series Is Our Flagship—Where Performance Meets Luxury.

For 2026, it's faster, smarter, better. The new Fast Mover Ballast System with RAMFILL Boosted slashes fill times by over 100%, letting you fill or drain while sitting still. Add optional rear and transom bags for total wave control. Every upgrade comes from decades of knowing exactly what riders demand—and delivering it. If you want more than a boat, you want the Ri. Customize it. Command it. Elevate every session.

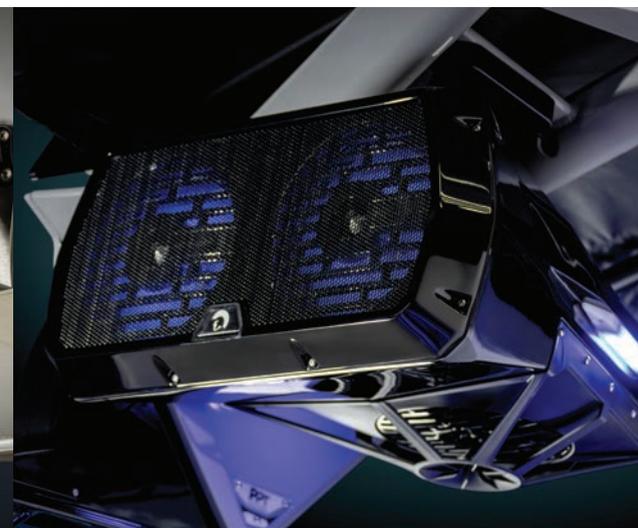

Evolution of the Wake Boat

The Ri Series Now Comes Standard With RAMFILL Boosted. Its 30-Gallon-Per-Minute Pumps Fill the RAMFILL Ballast Areas at Blazing Speed and Allow You to Fill or Drain While Sitting Still. A Roswell Vent Manages Overflow When Tanks Are Full.

Go big with the optional Predator Power Tower, featuring a rigid nine-foot bimini that can be raised and lowered by four synchronized Linak linear actuators at the push of a button. The optional Centurion Surge Thruster System (STS) by EZ-Drive delivers 87% more thrust and unmatched precision for pulling and close-quarters navigation. For 2026, cupholders showcase our 50th Anniversary Billet Badge. Available RGBw lounge lighting creates an elevated atmosphere. Ri Series models also include the Silent Stinger Wake Plate, reducing bow rise and helping you plane faster, in addition to dampening engine noise. Music lovers can upgrade to the SurroundFire Sound System by Roswell for a fully immersive experience. Even small details can make your boat stand out. Customize the look with optional colored aluminum accents to match your tower.

Choose Your Model Customize Your Experience

For Those Who Seek More Than a Boat—Those Who Aim to Build Lasting Memories—Centurion’s 2026 Ri Series Is Your Invitation to the Pinnacle of Performance and Luxury.

The Ri230, Ri245, and Ri265 aren’t just flagships; they’re refined vessels built for next-level wave-making and all-day comfort. And now, thanks to the new Fast Mover Ballast System and RAMFILL Boosted the Ri Series has significantly reduced ballast fill times. Not only does RAMFILL Boosted speed up the already fast fill of the largest ballast area, this new system also allows you to fill and drain RAMFILL sitting still. With Centurion’s world-renowned Opti-V Hull, exceptional interior, and innovation at every touchpoint, the Ri Series is crafted for enthusiasts who demand more.
